RIPE Policy Proposal 2019-03

- “BGP Hijacking is a RIPE Policy Violation”¹
- Anti-Abuse Working Group Discussion²
- Predictable Chaos Ensues

Lots of Threads

- Is this even technically possible?
- Will it help?
- Is this legal?
- What is the role of the community here?
- What is the role of the RIPE NCC?
- Will regulators & governments allow this?
- Will regulators & governments step in if nothing is done?

This Could Matter

- Discussion in anti-abuse, but touches (at least):
 - Routing
 - MAT
 - NCC services
 - Cooperation
- Forces us to deal with central issues:
 - Who is RIPE? Who is the RIPE NCC?
 - What are the rights & responsibilities?
