

What we're doing

We have created a global organisation with one mission:

*Help Network Operators & NOGs
do their thing and keep the internet running.*

We are the Global NOG Alliance

Who we are

Nishal Goburdhan

Chair

A specialist in:
internet infrastructure,
Internet Exchange Point Manager
and supporter of NOGs.

nishal@nogalliance.org

Sander Steffann

Treasurer & secretary

An international:IPv6 consultant
and founder member of NLNOG.
Former RIPE Address Policy Working
Group co-chair.

sander@nogalliance.org

René Fichtmüller

Board Member

Formally an:
Optical Aspirant with IXP
Background, now very well
known as an international
participant and supporter of
NOGs, and one of the founding
members of DJs in Tech.

rene@nogalliance.org

What we're doing

- Supporting NOGs around the world
- Encouraging world-wide cooperation in the internet community
- Identifying and fix common needs

How we're doing it

- Supporting NOGs around the world
 - Bring together Network Operators
 - Operate web servers, mailing list servers and other online services for NOGs - We're currently building websites and booking systems for NOGs and tech communities in Angola, Greece & Gambia
 - Help Network Operators to develop their local community
 - Give NOGs a head start and help them to thrive and grow

How we're doing it

- Encouraging world-wide cooperation in the internet community
 - Become a community hub of useful knowledge and information
 - Help NOGs with getting good, relevant speakers at their events
 - Help NOGs with developing best practices

How we're doing it

- Identifying and fixing common needs
 - Find and improve existing solutions
 - Where there are no existing solutions, we will work to develop them in cooperation with the wider NOG community
 - Provide encouragement and assistance to people developing open source solutions

Sounds good,
right?

What we are doing right now

- The Global NOG Alliance is registered as a Foundation
- Work with NOGs to identify their needs
- Free web/mail/mailling-list/etc. hosting for NOGs: WordPress including membership area and mailing list subscription, and Indico System for CfP incl. rating-Backend, Registration form, Agenda-scheduling
- We provide help to any NOG that asks for it
- Initial funding is provided by the founders
- We're looking for sponsors so we can expand our activities

What we need from you

- In the next 5 years we would like to...
 - Help NOGs cover speaker expenses to get better speakers
 - Fund open-source projects that benefit network operators
 - Provide NOGs with training material they can use for their members

How you can help

- Input (Topics / Projects / Speakers / Involvement)
- Open source development
- Money (Sponsorship)
- Motivation
